

## HELEN MAVROEIDIS

### DISCUSSION E – CYBER RISK AND DATA PROTECTION/INTERNAL CONTROL

#### TOPIC E1: *How to better cope with cyber-attacks - a cyber-resilience strategy for DGSs/ICSs*

**Helen Mavroeidis**

I hold a bachelor's degree in Physics from the University of Athens and a M.Sc. in Communication Engineering from the University of London, Imperial College of Science and Technology

I hold the position of the IT Director at the Bank of Greece. I have more than 25 years of experience in the development, management and support of IT systems and IT Infrastructures.

I have been involved as Project Manager in the design and implementation of several large IT projects and in the management and support of IT infrastructures. I am also responsible for the IT Department's long-term and short-term strategic plan as well as for drafting, proposing and implementing the IT budget. As coordinator for major IT projects, I am also responsible for the management of a series of IT-related tasks such as the conduction of feasibility studies, the composition of technical specifications, the follow up of procurement procedures as well as the definition of working groups for the design and implementation of IT projects.

I have many years of experience in the Networking and Security areas, while for the last nine years I have been coordinating all the Bank's activities regarding the design and implementation of Bank of Greece's Information Security Management System. In this context, I have been nominated by the Governor as Bank of Greece's representative at the Global Cyber Resilience Group of BIS and I am representing Bank of Greece at the National Cybersecurity Authority as responsible for Networks and Information Security. I hold and maintain the ISACA Certified Information Security Manager (CISM) certification.

Lastly, I am a member of the Eurosystem Information Technology Committee (ITC) which is responsible for the development of ESCB wide Information Systems and the creation of the relevant Infrastructures between the National Central Banks and the European Central Bank (ECB).
